# Introduction

Energy & Utility Skills is the skills organisation of choice for the gas, power, water and waste management industries. We deliver a safe, skilled and sustainable workforce with the energy and utility industries through our range of specialist services.

This document sets out the fees and charges for qualifications and apprenticeship end-point assessments offered by the Energy & Utilities Independent Assessment Service (EUIAS), our awarding organisation.

We undertake to ensure that our fees and charges are competitively priced, simple and easy to understand and they reflect the quality of our products and the service you receive. The fees and charges listed are applicable from 21 November 2024 and we will publish updated versions during the year so you always have access to our most up-to-date prices.

For further details please visit our website:

**[www.euias.co.uk](http://www.euias.co.uk)**

Please note, all prices included in this document are subject to VAT at the prevailing standard rate.

## Disclaimer

This document does not confer any contractual or legal rights. Our Centre Agreement sets out the obligations and rights of all parties when accessing our qualifications and apprenticeship end-point assessments.

## Centre fees – Qualifications

An organisation must be approved as an EUIAS Centre to deliver an EUIAS qualification.

Centre approval fee, including first qualification approval and a site visit	£650.00
Additional qualification approval fee, including a site visit	£450.00

We don't charge an annual fee for an organisation to continue to be recognised as an EUIAS Centre. An organisation maintains their recognition as an EUIAS Centre through our regular External Quality Assurance visits.

External Quality Assurance visit (face-to-face)	£500.00
External Quality Assurance visit (remote)	£250.00

## Centre fees – End-point assessment

Centre approval and External Quality Assurance fees do not apply to end-point assessment.

## Qualification and unit fees

Our registration and certification fees by qualification and unit where applicable, including any re-sit prices are set out below.

Our certificates are issued as e-certificates, which Centres can download from our QuartzWeb system.

## Notes:

1. Fees listed are based on the use of employer technical experts where permitted in the assessment plan.
2. The assessment plan includes exemptions to use employer technical experts to carry out the practical observation for Control Engineer, Electrical Project Engineer and Operational Delivery Engineer pathways.
3. The assessment plan includes exemptions to use employer technical experts to carry out the practical observation for power generation and nuclear employers.

We can provide independent assessors for the activities employer technical experts are permitted to carry out, please contact us for further information (direct line: 0121 713 8310, e-mail: enquiries@euias.co.uk).

## Registration fees

The registration fee is invoiced when you register an apprentice with us. If an apprentice registered with us does not reach gateway, we will refund 100% of their registration fee. The remaining EPA fee is invoiced at gateway.

## Cancellation fees

EPA cancellation fees apply when an EPA activity has been confirmed and is subsequently cancelled.

	<b>% of cancellation fee</b>
More than 10 working days before the EPA activity	0%
6 days to 10 working days before the EPA activity	25%
2 working days to 5 working days before the EPA activity	50%
Within 48 working hours of the EPA activity	100%

The fee is based on a percentage of the cancellation fee listed above, depending on when the EPA activity is cancelled. Any travel and accommodation costs incurred that cannot be re-scheduled or refunded will also be invoiced.
